

## Table of contents

<b>List of abbreviations .....</b>	<b>XIII</b>
<b>List of figures.....</b>	<b>XVII</b>
<b>List of tables .....</b>	<b>XIX</b>
<b>List of equations.....</b>	<b>XXI</b>
<b>1 Introduction.....</b>	<b>1</b>
1.1 Background .....	1
1.2 Research problem, purpose, and scope .....	2
1.3 Research questions .....	3
1.4 Research strategy, method, and process .....	3
1.5 Thesis outline .....	7
<b>2 Understanding productivity.....</b>	<b>9</b>
2.1 Productivity and related terminology .....	9
2.2 Characteristics of productivity .....	10
2.2.1 Level of productivity measurement.....	10
2.2.2 Types of productivity .....	11
2.2.3 Measurement of productivity .....	12
2.2.4 Productivity depending on the industry sector .....	12
2.2.5 Scope of productivity .....	12
2.2.6 Productivity and quality .....	14
2.2.7 Productivity related to the corporate level.....	14
2.2.8 Practicability of productivity measurements .....	15
2.3 Interim conclusion.....	15
<b>3 Approaches to productivity measurement in the literature .....</b>	<b>17</b>
3.1 Overview and classification of existing approaches .....	17
3.2 Selection of suitable approaches regarding the scope of research .....	22
3.3 Description of the selected approaches .....	23
3.3.1 Kurosawa (1980) .....	23
3.3.2 Petersson (2000) .....	25
3.3.3 Kronos (2007).....	27
3.3.4 Engroff (2008) .....	28
3.3.5 Sauter and Killisch-Horn (2010) .....	29

3.3.6	Almström (2012).....	30
3.3.7	Czumanski and Lödding (2016).....	32
3.3.8	Dorner (2014).....	34
3.3.9	Glöckner et al. (2017) .....	35
3.3.10	Hours-per-Vehicle (HPV).....	36
3.4	Supplementary consideration of the OEE approach .....	36
3.5	Interim conclusion .....	39
<b>4</b>	<b>Labour productivity measurement in practice.....</b>	<b>41</b>
4.1	Description of the approach used in practice.....	41
4.2	Statement regarding the dissemination based on literature .....	42
4.3	Statement regarding the dissemination based on empirical data .....	43
4.4	Statement regarding the dissemination based on observations from the field .....	44
4.5	Interim conclusion .....	47
<b>5</b>	<b>Productivity measurement for manual and semi-automated work.....</b>	<b>49</b>
5.1	Requirements for a unified approach.....	51
5.1.1	Requirements based on the gap between literature and practice .....	51
5.1.2	Requirements from the shop floor .....	52
5.2	Key factors derived and modified from existing approaches .....	56
5.2.1	Utilisation.....	56
5.2.2	Availability .....	58
5.2.3	Performance .....	61
5.2.4	Quality.....	63
5.2.5	Method and production pace.....	65
5.2.6	Design .....	67
5.2.7	Summary and overview of the relevant factors .....	67
5.3	Requirements not covered by existing approaches.....	68
5.4	Additional factors and aspects .....	70
5.4.1	Production plan compliance as effectiveness aspect .....	70
5.4.2	Reconsideration of availability .....	76
5.4.3	Further effectiveness aspects .....	78
5.4.4	Aggregation on the shop floor .....	80
5.4.5	Presentation of labour productivity on the shop floor and for management.....	94
5.5	Labour productivity measurement approach development.....	97

---

5.5.1	Consolidation of all factors .....	97
5.5.2	Theoretical example .....	99
5.6	Shop floor data acquisition.....	104
5.7	Embedding the unified approach in productivity management .....	108
5.8	Interim conclusion.....	110
<b>6</b>	<b>Validation based on case studies .....</b>	<b>111</b>
6.1	Limitations .....	111
6.2	Case study A.....	111
6.2.1	Initial situation.....	111
6.2.2	Available database.....	112
6.2.3	Established productivity measurement.....	113
6.2.4	Application of productivity measurement .....	113
6.2.5	Discussion and findings.....	119
6.3	Case study B.....	120
6.3.1	Initial situation.....	120
6.3.2	Available database.....	120
6.3.3	Established productivity measurement.....	122
6.3.4	Application of productivity measurement .....	123
6.3.5	Discussion and findings.....	127
6.4	Interim conclusion.....	128
<b>7</b>	<b>Conclusions and future research .....</b>	<b>131</b>
7.1	Answers to the research questions .....	131
7.2	Academic contribution .....	136
7.3	Industrial relevance .....	136
7.4	Limitations and future research.....	137
<b>8</b>	<b>References.....</b>	<b>139</b>
<b>9</b>	<b>Appendix.....</b>	<b>151</b>
9.1	Appendix A: Identified approaches to productivity measurement in the literature.....	151
9.2	Appendix B: Theoretical example with exemplary calculation steps .....	173
